

Provincial introduction to the Naturopathic Legacy Project

The Naturopathic Legacy Project (NLP) is an ad hoc committee of the OAND. Our sole initiative is to preserve the wisdom of our Naturopathic Elders by accessing and archiving their clinical pearls, hands-on techniques and experiential wisdom that is no longer integrated into current educational curricula. It is important to our mandate to preserve not only the skills and information but also the philosophy that underlies the roots of Naturopathic Medicine and for this knowledge to be indefinitely available to current and future NDs.

We are centred in Ontario, but hope to expand beyond our provincial borders in time. We have now established a connection with the BCNA through Glenn Cassie and Dr. Ingrid Pincott, ND. We are very excited to be sharing and coordinating with them and hope to do so with other naturopathic organizations in the future. If your association would like to be involved in the preservation of traditional Naturopathic Medicine through the NLP, please contact us at NaturopathicLegacy@Gmail.com. The Naturopathic Legacy Project would love to connect and share with you.

Preserving our Past for our Future.
